ABOUT ME

A Diploma student in Information Technology searching for internship to gain knowlegement and skill and experience in related to Information Technology. I have many interest on learning new things. I will show full passion during the internship and I will also give a good teamwork while completing the task have been given.

When I doing project in university with my member I always communicate with my member first to have discussion before starting the project. Because I think more discussion will bring easy work to succesfull complete the project.

My strengths:

- Responsibility
- Motivation
- Strong communication skills
- Team work
