- Travel

## ABOUT ME

A Diploma Information Technology student seeking an internship to gain practical experience on computer hardware and expand my skills. I have high motivation for technologies and enjoy exploring new technologies, computer hardware, programming language, and software application. I am very interested in computer hardware and some experience on building a computer.

With my academic background and hands-on experience in various assignment projects, I possess strong analytical and problem-solving skills, attention to detail, and an eagerness to learn. I am confident that an internship will provide me with the opportunities to apply my theoretical knowledge to real-world scenarios, enhance my technical skills.

### My strengths:

- Creative Thinking
- Leadership
- Teamwork
- Responsibility
- Passion
- Likes to learn
- Communication
- Time Management
